### ABOUT MY SEA TURTLE ARTWORK

The Sea Turtles will be a family of varying sizes created in locally sourced mesquite and mounted with heavy-duty fittings. They will take approximately 1 month from inception and weigh in the region of 1/2 ton for the completed work. It will be displayed at the current site of the South Padre Dolphins at Sea Ranch Restaurant ready for the April turtle release season! Andy's work can be found across the island at various locations and if you see him at work - say hello!

Thanks to the South Padre Island Convention & Visitors Bureau for the opportunity to bring pleasure to everyone who visits. When we share, we grow!
